Professional Summary

Aspiring Data Scientist with hands-on experience in Machine Learning, Generative AI. Skilled in Python, SQL, data preprocessing, predictive modeling, and AI-driven applications, with a strong passion for solving real-world problems using data and artificial intelligence.

Education

- | | |
|---|------------|
| • Bachelor of Technology in Computer Science and Engineering | 2022–2026 |
| <i>Rajiv Gandhi University of Knowledge Technologies-Basar</i> | CGPA: 8.54 |
| • Pre University Course | 2020–2022 |
| <i>Rajiv Gandhi University of Knowledge Technologies-Basar</i> | CGPA: 8.9 |
| • S.S.C | 2020 |
| <i>T.S. Model School-Mandamarri</i> | CGPA: 10.0 |

Experience

- | | |
|---|---------|
| • Data Science Intern | Current |
| <i>Exposys Data Labs company</i> | Remote |
| Real-time project | |
| – Cleaned and validated 11,000+ records using automated data preprocessing techniques. | |
| – Developed a Flask dashboard to monitor campaign performance and delivery metrics. | |
| – Performed EDA and created visual reports using Matplotlib for trend analysis. | |
| – Used SQL for data storage, querying, and analysis. | |
| – Applied data validation techniques including format checks and MX verification. | |
| – Generated dashboards and reports to support business insights and performance tracking. | |

Projects

- | | |
|---|---|
| • Emotionally Intelligent AI Counselor | <i>Python, Hugging Face Transformers, LoRA (PEFT), TRL</i> |
| – Addressed the lack of emotionally supportive AI responses by fine-tuning the Mistral-7B-Instruct model using LoRA (PEFT) and 4-bit NF4 quantization for efficient training on limited hardware. | |
| – Solved the problem of insufficient empathetic training data by creating a Bhagavad Gita-based Q&A dataset structured in Human–Assistant conversational format. | |
| – Improved response consistency and supportive behavior through supervised fine-tuning using TRL’s SFTTrainer and carefully designed system prompts. | |
| – Enhanced empathy and counselling response quality by evaluating and optimizing the model using the Psych8k mental health counselling dataset. | |
| • Intelligent Social-to-Lead AI Chatbot | <i>Python, LangChain, FAISS, Sentence Transformers, RAG</i> |
| – Developed an AI-powered chatbot to automate customer interaction and support for SaaS platforms. | |
| – Implemented RAG with FAISS and Sentence Transformers for accurate real-time response generation | |
| – Automated lead capture with email validation to collect user details efficiently. | |
| – Successfully answered pricing queries, detected user intent, and captured customer leads automatically. | |

Skills and Interests

Languages: Python, MySQL

Machine Learning: Regression, Classification, Clustering, Model Evaluation

Deep Learning: Neural Networks, CNN, RNN

Generative AI: Large Language Models (LLMs), Prompt Engineering

Data Analysis: EDA, Data Cleaning, Preprocessing, Data Validation

Libraries & Tools: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Streamlit, Colab, Jupyter Notebook

Soft Skills: Communication, Problem Solving, Teamwork

Achievements

- Selected for the **Hire, Train, Deploy (HTD) Program** in **Data Science** by **Exposys Data Labs**.
- Secured a rank under 1000 in the **Telangana POLYCET** entrance examination.

Certificates

- Received certification for successfully completing the **3-Month Data Science Skill Development Program** conducted by **Swinfy Solutions**.
